

Real Mohsin

Software Developer

I'm a software developer who enjoys and specializes in the fast-paced field of web development.

Experience

2018 - Present

Software Developer @ *realmohsin.com*

Worked across the stack, from server construction to front-end design for a variety of client projects. Planned and implemented programming solutions to e-commerce problems faced by online businesses. Consulted and advised clients on which technologies serve particular business interests relating to SEO and online marketing.

2015 - 2017

Front End Engineer @ *Rivi Consulting*

Collaborated with developers to create online payment systems for e-commerce business clients. Worked closely with designers to develop, document and manage client marketing websites. Managed the migration of Wordpress-based websites to server-side rendered websites.

2013 - 2015

Real Estate Consultant @ *Hakir Realty*

Facilitated negotiations for the buying, financing and rebuilding of real estate projects. Managed the logistics and profitability concerns of refurbished real estate assets.

2011 - 2012

Mathematics Tutor @ *Khan's Tutorial*

Prepared students for the SHSAT – specialized science high school entrance exams. Taught mathematics for SAT Math section to high school students.

Education

2006 - 2009
