

Profile

Senior Frontend Engineer with 10 years of experience building web applications for startups and enterprise organizations. Deep expertise in TypeScript, React, frontend architecture, performance, and security. Experienced owning frontend codebases and delivery pipelines, including CI/CD, release management, and shipping production applications in fast-moving Agile environments.

Professional Experience

Mohsin Consulting Aug 2023 to Present
Lead Frontend Engineer

- Led the frontend engineering team on client projects, overseeing frontend architecture, CI/CD pipelines, and production deployments.
- Worked as a senior contractor for startups, most notably Planet Labs and OpenAI.

OpenAI Jan 2026 to Mar 2026
Senior Software Engineer, Frontend

- Currently under NDA (Non-Disclosure Agreement), cannot discuss details yet.
- Contract position for a confidential, fixed-duration project.

Planet Labs Sep 2023 to Feb 2024
Senior Frontend Engineer

- Updated authentication flows to align with current security standards.
- Implemented frontend changes across all internal applications to support the transition to using federated identity.
- Senior contractor through Mohsin Consulting.

Uptycs Sep 2021 to Jul 2023
Software Engineer, Frontend

- Full-time position at a fast-paced, Series B-funded cybersecurity startup.
- Designed and developed complex data visualizations for cybersecurity incident detection used by PayPal, Comcast, Wix, and other large enterprise customers.
- Implemented a client-side data caching feature that dramatically improved dashboard table performance.

Freelance Apr 2018 to Aug 2021
Frontend Engineer

- Contract work developing e-commerce web applications.
- Improved Core Web Vitals across client websites by optimizing front-end performance, particularly load times and rendering behavior.

RiVi Consulting Nov 2015 to Mar 2018
Frontend Engineer

- Maintained websites for commercial clients.
- Worked with designers and product managers in an Agile development environment.
