

Profile

Senior software engineer with 10 years of experience building web applications for startups and enterprise organizations. TypeScript-focused engineer with deep expertise in architecture, performance, security, and best practices for modern software delivery. Contributed across industries including cybersecurity and satellite imagery, delivering code that currently powers applications across the web.

Professional Experience

Mohsin Consulting Aug 2023 to Present

Engineering Lead

- Led engineering and delivery for client projects end-to-end, overseeing planning, architecture, development and final deployment.
- Worked as a contractor for startups and enterprises, most notably Planet Labs.

OpenAI Jan 2026 to Mar 2026

Senior Software Engineer

- Currently under NDA (Non-Disclosure Agreement).
- Contract position through G2i Inc for a confidential, fixed-duration project.

Planet Labs Sep 2023 to Feb 2024

Senior Software Engineer

- Upgraded authentication systems to use modern frameworks.
- Helped in the transition to using federated identity across all internal applications.
- Contract position through personal company Mohsin Consulting.

Uptycs Sep 2021 to Jul 2023

Software Engineer

- Full-time position at Series B Funded cybersecurity startup.
- Architected frontend cybersecurity systems used for incident detection at PayPal, Comcast, Wix and other large enterprise customers.
- Served as technical lead in the implementation of a client-side data caching library.

Freelance Apr 2018 to Aug 2021

Software Engineer

- Contract work developing e-commerce web applications.
- Improved Core Web Vitals across client websites by optimizing frontend performance, load times, and rendering behavior.

RiVi Consulting Nov 2015 to Mar 2018

Front End Engineer

- Maintained websites for commercial clients.
- Worked with designers and product managers in an Agile development environment.
